

## Peoples Health Comprehensive Wellness Assessment: A Health Information Resource for You and Your Patients

---

Peoples Health CWAs support you in the care you deliver to your Peoples Health patients. CWAs are no-cost, annual health evaluations to help educate patients on their current health while making it easier for us to collect health information and then share it with you. A CWA does not replace or change the care you provide.

A licensed, qualified and fully trained clinician conducts the assessment at a Peoples Health service center or the patient's home. The clinician is from Peoples Health or one of the organizations that we work with (Alegis and HouseCalls) to offer the CWA. The clinician talks with the patient about medical history, current treatments and medications, and helps the patient establish or update personal health goals and determine needed preventive screenings. Patients who complete the CWA are eligible to receive a reward as part of our member rewards program.

You can play an important role in encouraging your patients to receive a CWA or facilitating a patient's receipt of one.

### Steps to Take

1. When you see your Peoples Health patients during the course of the year, **encourage** them to complete the CWA if they are contacted by Peoples Health to do so.
2. Periodically during the year, we will give you a report of your targeted Peoples Health patients who have not received a CWA. We ask that you reach out to these patients to **discuss** the benefits of the CWA and encourage them to schedule one. We are developing additional resources that you can use to help with this discussion. We will post these on the Provider Portal **Resources** tab, under "Provider Initiatives."
3. To **request** a CWA for a patient, call our member services department at 1-866-553-5705.
